WELCOME TO INDIANA BUILD INFRASTRUCTURE

A 1995 established company with a focus laid on construction of Diaphragm Walls, Pile Foundations, Ground Anchors, Marine Structures and Geotechnical Investigations.

IBIPL has also carried out various projects which include the construction of jetties, Wharves, Culverts, Mooring Dolphins, Bridges, Reclamations & Bunds.

From the very beginning, Professionalism has always been the hallmark of INDIANA. Over the years, with its experience and expertise, the company has not only achieved prestigious projects to its credits but has also been able to work towards the advancement of the construction industry. High caliber professionals, the latest technologies and most modern equipment remain the very factors that went into making this happen. The company is now equipped to handle projects of larger sizes. [More...](#)
